Career Center  
Alterations and Addition  
Phase II  
MAA 0103

Dear Ray,

I wanted to thank you and compliment your firm for a job well done. Your staff was very knowledgeable and very cooperative throughout the construction process. You, your project manager and field foreman were a pleasure to work with.

I have been in construction for almost forty years and find it refreshing to come across a contractor who is as professional as you are.

I look forward to working with you and Corporate Electric in the near future.

Very truly yours,  
Mignone Associates Architects, P.C.
